### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312.

To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Ursula Day on April 26, 2005.

The application has been amended as follows:

Claims 22 and 23 are cancelled.

2. The following is an examiner's statement of reasons for allowance:

The prior art of record fails to disclose or suggest an ophthalmologic instrument for microsurgery in an eye comprising a head piece configured as a holding element and having two arms separated by a slot, the two arms are configured with distal end portions which are oriented substantially at a transverse axis relative to the longitudinal axis and delimiting a recess, and wherein the two arms, starting from the cylindrical rod in the direction of the frontal face of the head piece viewed from the transverse axis, are tapered off. This limitation, in combination with all of the limitations of claim 1, makes the claim allowable over the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
